

Luzia Vetter Räss

Clinical Nursing Scientist, Advances Practice Nurse (APN)
LUKS - HSLU

Luzia Vetter is an Advanced Practice Nurse (APN) in anesthesia, a lecturer at the Lucerne University of Applied Sciences and Arts (HSLU), and a doctoral candidate in Health Sciences. In her current role as an APN Anesthesia of the LUKS Group, she leads clinical practice development, evaluates healthcare protocols, and designs integrated perioperative pathways.

With a strong clinical background spanning over two decades in anesthesia care and infection prevention, Luzia has successfully led numerous interprofessional projects, including the implementation of standardized pain management concepts and acute care protocols.

Luzia holds a Master of Science in Nursing (MScN) from the Bern University of Applied Sciences. Her current PhD research investigates the definition, scope of practice, and implementation of Advanced Practice Nursing in anesthesia within the Swiss healthcare context.
